*Supplement to the*

*"Proceedings of the Indian Academy of Sciences"*

# INDEX TO VOL. XLII—(B)

## AUTHORS' INDEX

Agnihothrudu, V. (Miss) Bhuvaneswari, K. and Suryanarayanan, S. — Fungi isolated from Rhizosphere, I, 98.

Baugh, S. C. .. *See* Lal and Baugh.

Bhat, J. V. and Iyer, V. .. Aerobic mesophilic sporeforming bacteria in Indian environments, 325.

Bhuvaneswari (Miss), K. *See* Agnihothrudu and others.

Bilgrami, K. S. .. *See* Tandon and others.

Deoras, C. M. .. *See* Joshi and Deoras.

Fattah, Q. A. .. Studies on the morphology of the axis of *Solanum nigrum* (Solanaceæ) on the evidence of the internodal and nodal anatomy, 39.

Ganju, P. N. .. The petrology of coals of the Daltonganj Coalfield, 14.

Giri, K. V. .. *See* Pillai and others.

Govindappa, D. A. .. Embryological studies in *Xyris pauciflora* Willd, 47.

Iyer, V. .. *See* Bhat and Iyer.

Joshi, R. H. and Deoras, C. M. — Use of tank-silt as a manure in Madhya Pradesh. Effect of tank-silt on the water stable aggregation of soil, 334.

Kalyanasundaram, R. .. Soil conditions and root diseases, XIV, 145.

Khanna, K. L., Sharma, S. L. and Ramanathan, K. R. — Studies in the anatomy of sugarcane stalk, V, 195.

Lal, K. N. .. *See* Rao and Lal.

Lal, M. B. and Baugh, S. C. — Studies in histopathology—Effects of the presence of a plagiorchid metacercaria on the tissues of the snail *Vivipara bengalensis* (Lamarck), 114.

Lal, M. B. and Premvati — Studies in histopathology—Changes induced by a larval monostome in the digestive gland of the snail, *Melanoides tuberculatus* (Müller), 293.

Majumdar, G. P. .. The complete foliage leaf, 65.

Nayar, K. K. .. Studies on the neurosecretory system of *Iphita limbata* Stal., II, 27.

Pillai, N. C., Vaidyanathan, C. S. and Giri, K. V. — A blood anticoagulant factor from the latex of *Carica papaya*, I, 316.

Premvati, .. — *See* Lal and Premvati.

Ramakrishnan, K. .. — Ascomycetes from South India, III, 249.

Ramakrishnan, T. S. and Sundaram, N. V. — Additions to the fungi of Madras, XVIII, 58.

Ramalingam, K. .. — A remarkable organism, *Telegamatrix pellona* gen. et sp. nov. (Monogenea: Diplectaninæ) parasitic in an Indian Herring, 209.

Ramanathan, K. R. .. — *See* Khanna and others.

Ranadive, Kamal J. .. — *See* Waravdekar and Ranadive.

Ranadive, Kamal J. and Waravdekar, Susheela — The influence of "Milk-Borne Tumor Agent" on some endocrine glands in castrate mice, 162.

Rao, M. S. Subba and Lal, K. N. — Development of assimilating surface in relation to leaf indices and dry matter accumulation, 258.

Rao, N. A. N. and Wadhwani, T. K. — Studies on the amino-acid metabolism of *Mycobacterium tuberculosis* H37Rv, 105.

Rao, V. S. and Sirdeshmukh, K. — The perianth of *Saraca indica*, 311.

Roy, Supriya .. — Ore microscopic studies of the manganese minerals of Jamda Valley, Keonjhar, 90.

Sadashivaiah, M. S. .. — A tectonic analysis of the quartz reefs in the metamorphites of Tilatanr, Tetulmari (Dhanbad), 73.

Sebastine, K. M. .. — The immigrant economic plants of India, I, 239.

Sharma, S. L. .. — *See* Srivastava and Sharma.

.. — *See* Khanna and others.

Shulov, A. .. — A contribution to the ecology of *Trogoderma granaria* Everts, 1.

Singh, Inderjit .. — *See* Singh and Singh.

Singh, Sunita Inderjit and Singh, Inderjit — Active relaxation of unstriated muscle produced by proteolytic enzymes and the mode of action of these enzymes, 85.

.. — The action of sodium and potassium on blood vessels and its relation to hypertension, 172.

.. — The action of cholesterol on unstriated muscle and blood vessels and its relation to hypertension, 183.

.. — The action of calcium on blood vessels and its relation to hypertension, 191.

.. — The antagonism between active and passive relaxation of muscle, 300.

| Tandon, R. N., Sisodia, U. S. and Bilgrami, K.S. | | Pathological studies of *Pestalotia mangiferæ*, 219. |
| Vaidyanathan, C. S. | .. | *See* Pillai and others. |
| Venkataraman, R. and Sreenivasan, A. | | Utilization of various nitrogenous compounds by certain pseudomonas cultures from marine environments, 31. |
| Venkata Ram, C. S. | .. | Soil fusaria and their pathogenicity, 129. |
| Wadhwani, T. K. | .. | *See* Rao and Wadhwani. |
| Waravdekar, Susheela | .. | *See* Ranadive and Waravdekar. |
| Waravdekar, Susheela, S. and Ranadive, Kamal J. | | The influence of "Milk borne tumor agent" on some endocrine glands in "Intact" (non-castrate) mice, 154. |

## TITLE INDEX

Ascomycetes from South India, III (Ramakrishnan), 249.

Assimilating surface in relation to leaf indices and dry matter accumulation, development of (Rao and Lal,) 258.

Bacteria, aerobic mesophilic sporeforming, in Indian environments (Bhat and Iyer), 325.

Blood vessels, the action of calcium, and its relation to hypertension (Singh and Singh), 191.

Blood vessels, the action of sodium and potassium, and its relation to hypertension (Singh and Singh), 172.

*Carica papaya*, the latex of, a blood anticoagulant factor from, I (Pillai and others), 316.

Coals of the Daltonganj coalfield, the petrology (Ganju), 14.

*Croton sparsiflorus* Mor., chemical control (Srivastava and Sharma), 123.

Foliage leaf, complete (Majumdar), 65.

Fungi imperfecti from Madras, VII (Subramanian), 283.

Fungi isolated from rhizosphere, I (Agnihothrudu and others), 98.

Fungi of Madras, additions, XVIII (Ramakrishnan and Sundaram), 58.

Histopathology, studies—Changes induced by a larval monostome in the digestive gland of the snail, *Melanoides tuberculatus* (Müller) (Lal and Premvati), 293.

Histopathology, studies—Effects of the presence of a plagiorchid metacercaria on the tissues of the snail *Vivipara bengalensis* (Lamarck) (Lal and Baugh), 114.

Immigrant economic plants of India, I (Sebastine), 239.

*Iphita limbata* Stal., neurosecretory system, studies, II (Nayar), 27.

Manganese minerals of Jamda Valley, Keonjhar, ore microscopic studies (Roy), 90.

Mice, castrate, some endocrine glands, the influence of "Milk Borne Tumor Agent" (Ranadive and Waravdekar), 162.

Mice, "Intact" (non-castrate), some endocrine glands, the influence of "Milk Borne Tumur Agent" (Waravdekar and Ranadive), 154.

Muscle, the antagonism between active and passive relaxation (Singh and Singh), 300.

Muscle, unstriated, active relaxation, produced by proteolytic enzymes and the mode of action of these enzymes (Singh and Singh), 85.

Muscle, unstriated, and blood vessels, the action of cholesterol, and its relation to hypertension (Singh and Singh), 183.

*Mycobacterium tuberculosis* H37Rv, amino-acid metabolism, studies (Rao and Wadhwani), 105.

Nitrogenous compounds, various, utilization, by certain pseudomonas cultures from marine environments (Venkataraman and Sreenivasan), 31.

*Ophicephalus*, the skull (Srinivasachar), 226.

*Pestalotia mangiferæ*, pathological studies (Tandon and others), 219.

Quartz reefs in the metamorphites of Tilatanr, Tetulmari (Dhanbad), a tectonic analysis (Sadashivaiah), 73.

*Saraca indica*, the perianth (Rao and Sirdeshmukh), 311.

Soil conditions and root diseases, XIV (Kalyanasundaram), 145.

Soil fusaria and their pathogenicity (Venkat Ram), 129.

*Solanum nigrum* (Solanaceæ), axis of, morphology, studies, on the evidence of the internodal and nodal anatomy (Fattah), 39.

Sugarcane stalk, studies in the anatomy, V (Khanna and others), 195.

Tank-silt, use, as a manure in Madhya Pradesh. Effect of tank-silt on the water stable aggregation of soil (Joshi and Deoras), 334.

*Telegamatrix pellona* gen. et sp. nov. (Monogenea: Diplectaninæ) parasitic in an Indian Herring, a remarkable organism (Ramalingam), 209.

*Trogoderma granaria* Everts, ecology, a contribution (Shulov), 1.

*Xyris pauciflora* Willd., embryological studies (Govindappa), 47.
